- Version control and core web vitals
- Tailwind CSS and Bootstrap 5
- HTML, CSS, and SCSS
- API development and integration
- Performance optimization
- Nest JS, Node JS and MongoDB
- Cross-browser compatibility

WORK HISTORY

- 01/2025 to Current

Senior Frontend Developer

The KPI Institute – Remote

 - Developed reusable UI components using React and Next.js for the LMS platform, reducing development time for new features by 40% and improving code maintainability across modules used by instructional designers, teachers, and students.
 - Streamlined the codebase by refactoring and modularizing CSS, HTML, and JavaScript files, resulting in a 25% reduction in code duplication and faster onboarding for new developers.
 - Contributed strategic input during planning and design phases, helping shape scalable architecture decisions that accelerated feature delivery timelines by 30%.
 - Led end-to-end testing efforts across diverse user roles and devices, ensuring a 99.9% bug-free release rate and significantly enhancing the overall user experience across the LMS platform.

01/2024 to 12/2024

Front End Team Lead

Retail Direct Group – Lahore

- Spearheaded E-Commerce development projects as Frontend Team Lead, providing technical leadership and mentorship to front-end developers, resulting in a 50% reduction in development cycle times across multiple releases.
- Collaborated cross-functionally with designers, backend engineers, and SEO

specialists to deliver cohesive, high-performing user experiences that aligned with business goals and SEO best practices.

- Conducted performance and scalability audits, identifying key bottlenecks and implementing fixes that reduced page load times by up to 60% and improved Core Web Vitals scores significantly.
- Migrated the LaptopOutlet website from Magento to Next.js 13, leading to a 3x faster page load time and enhanced maintainability of the codebase.
- Led the successful upgrade of the company's flagship site to Angular 18, introducing modular architecture and lazy loading strategies that boosted performance by over 40%.
- Implemented robust caching strategies (Redis, SSR) and advanced image optimization techniques, resulting in a 70% improvement in Lighthouse performance scores and a smoother user experience during peak traffic periods.

01/2023 to 12/2023 **Senior Front End Developer**

DEPA Interiors, LLC/ Quaid Technologies – Islamabad/Remote

- Developed a bespoke low-code/no-code app store from inception to production for DEPA, enabling business users to create and manage custom apps 70% faster without developer intervention.
- Collaborated with cross-regional teams in Dubai for in-depth requirement analysis, UAT, and QA, ensuring on-time delivery with a 95% stakeholder satisfaction rate.
- Created a centralized corporate app store for DEPA, consolidating internal tools and modules, leading to a 40% increase in operational efficiency for non-technical departments.
- Implemented advanced features such as drag-and-drop form builders and Active Directory-based authentication, enhancing security and reducing onboarding time by 50%.
- Engineered a robust workflow automation system with approval/rejection logic, dynamic PDF generation, and audit trails, helping reduce manual paperwork by over 60%.
- Delivered a comprehensive event management system for the Pakistan Endocrine Society, supporting 1000+ registrations, real-time scheduling, and feedback collection.

10/2021 to 12/2022 **React JS Developer (Part-Time)**

BlockyFy – Islamabad

- Developed responsive and accessible UI components using React, delivering a seamless user experience across web and mobile devices and contributing to a 35% increase in platform engagement.
- Led the front-end team through the successful launch of a Social Media/NFT platform, meeting all project milestones and achieving a 100% on-time delivery rate.
- Mentored junior developers, fostering a collaborative learning environment and improving team productivity by over 25% through code reviews and hands-on guidance.

- 10/2021 to 12/2022 **Angular Developer**
Solis Solutions

- 02/2020 to 12/2023 **Full Stack Developer**
Freelance Work – Remote
